

CIREC 2011

Guided poster tours - Thursday 9 June 2011

Posters for SESSION 6

Paper No	Title	Interactive	Module	Time slot 1	Time slot 2
0016	IMPLEMENTATION OF AMR/AMM SYSTEM: RESULTS AND PLANS - ELEKTROPRIVREDA BIH	Interactive	6	09:00 - 10:30	11:00 - 12:30
0072	Does the power industry need satisfied customers and a good reputation?	Interactive	5	09:00 - 10:30	11:00 - 12:30
0088	Building risk based investment programmes	Interactive	8	11:00 - 12:30	09:00 - 10:30
0160	The Swedish Government Inquiry on Smart Meters and Intelligent Networks	Interactive	5	09:00 - 10:30	11:00 - 12:30
0169	Research on Smart Meter Management System for Low-voltage Customers	Not interactive	6		
0210	IT Compliance in Smart Grids	Not interactive	8		
0233	The Swedish benchmarking report on continuity of supply	Interactive	5	09:00 - 10:30	11:00 - 12:30
0244	Community Energy from Policy to Practice	Interactive	5	09:00 - 10:30	11:00 - 12:30
0286	Transformer Condition Assessment Integrated with Reliability Analysis	Interactive	8	11:00 - 12:30	09:00 - 10:30
0291	Management of Partnership Networks in Electricity Distribution Business	Not interactive	8		
0296	Real time purchase and settlement of distribution losses	Interactive	6	09:00 - 10:30	11:00 - 12:30
0313	Electrica's AMI Strategy updates	Interactive	6	09:00 - 10:30	11:00 - 12:30
0340	What are the Current Regulatory Barriers in Brazil for Small Renewable Power Plants?	Not interactive	5		
0356	A method to allocate distributor and other agent payments for transmission expansion	Not interactive	8		
0368	load factor based tariff	Not interactive	8		
0372	Multi utility grid operation: An organisation study	Interactive	8	11:00 - 12:30	09:00 - 10:30
0415	Experiences from operations after a full-scale Smart Metering rollout regarding availability and reliability.	Interactive	6	09:00 - 10:30	11:00 - 12:30
0420	Marginal Pricing of Distribution Networks Using AC Power Flow	Interactive	8	11:00 - 12:30	09:00 - 10:30
0427	CAPITAL COSTS IN NEW SWEDISH REVENUE REGULATION	Interactive	5	09:00 - 10:30	11:00 - 12:30
0448	Development of target grid strategies supported by the asset simulation optimization core having regard to target costing	Interactive	8	11:00 - 12:30	09:00 - 10:30
0455	Inovcity - Building Smart Grids in Portugal	Interactive	5	09:00 - 10:30	11:00 - 12:30
0469	Peak load pricing applied to deverticalized distribution network usage tariffs	Interactive	8	11:00 - 12:30	09:00 - 10:30
0478	Improving the data quality of the LV-connectivity	Not interactive	6		
0480	Smart Energy Products for Efficient Demand Response: Results of Swiss Smart Grid Pilot Project	Interactive	7	11:00 - 12:30	09:00 - 10:30
0485	Adopting a general regulatory approach on the European electricity market	Interactive	5	09:00 - 10:30	11:00 - 12:30
0487	Automatic Asset Optimization to confirm the chosen asset strategy for an electricity grid	Interactive	8	11:00 - 12:30	09:00 - 10:30
0493	Common and accepted electronic data interchange interface between Finnish electricity supplier companies ...	Interactive	8	11:00 - 12:30	09:00 - 10:30
0589	Risk-based asset maintenance management in distribution systems	Interactive	8	11:00 - 12:30	09:00 - 10:30
0594	Building System Resilience through Multi-Disciplinary and Cross-Divisional Regional Resilience Teams	Interactive	8	11:00 - 12:30	09:00 - 10:30
0646	The potential of using equivalent comparison standards to judge effectible costs in electrical distribution tariff regulation	Interactive	5	09:00 - 10:30	11:00 - 12:30
0684	Optimizing the contradiction between enhanced energy security, environmental protection and minimizing the costs	Interactive	5	09:00 - 10:30	11:00 - 12:30
0754	Making the electricity consumption visible	Interactive	6	09:00 - 10:30	11:00 - 12:30
0757	Improve the life cycle asset management performance based on the systemic KPI application	Interactive	8	11:00 - 12:30	09:00 - 10:30
0773	Network Effects of Electric Vehicles - Case from Nordic Country	Interactive	7	11:00 - 12:30	09:00 - 10:30
0782	The distribution electric pricing considering interruptible load in the electricity market	Not interactive	8		
0789	Study of optimal dispatching strategy of Demand Side Bidding considering the network constraints	Not interactive	7		
0828	Smart Grids in Distribution Networks until 2030 – Technologies, Potentials, Market Developments	Interactive	5	09:00 - 10:30	11:00 - 12:30
0836	EEGI and EDSO: the initiative to develop European Smart Grids	Not interactive	5		
0845	Security Schemes for AMI	Not interactive	6		
0887	Smart Metering and Customer Consumption Behaviour Profiling -- Exploring Potential Business Opportunities ...	Interactive	6	09:00 - 10:30	11:00 - 12:30
0909	Introducing customer promises in Sweden and Finland	Interactive	5	09:00 - 10:30	11:00 - 12:30
0939	Impacts of Smart Grids on electricity retail Business	Not interactive	7		
1000	Finnish Smart Grids - A migration from version one to the next generation	Interactive	5	09:00 - 10:30	11:00 - 12:30
1003	Supporting Domestic Energy Reduction Via Persuasive Technology	Interactive	7	11:00 - 12:30	09:00 - 10:30

1019	Data supply for the Portuguese branch of Iberian electricity market	Interactive	6	09:00 - 10:30	11:00 - 12:30
1061	Charging for charging - business aspects	Interactive	7	11:00 - 12:30	09:00 - 10:30
1079	Determination of Descriptive Attributes used to Calculate Technical Losses of Medium and Low Voltage Networks ...	Interactive	5	09:00 - 10:30	11:00 - 12:30
1085	Demand Response: Conflict between Distribution System Operator and Retailer	Interactive	7	11:00 - 12:30	09:00 - 10:30
1092	Feed-in Tariffs and Community Aggregated Trading of Microgeneration Sourced Electricity.	Not interactive	8		
1157	An Approach for Critical Component Identification in Reliability-Centered Maintenance of Power Distribution Systems ...	Interactive	8	11:00 - 12:30	09:00 - 10:30
1207	Principal requirements of designing the reward-penalty schemes for reliability improvement in distribution systems	Not interactive	5		
1213	Optimized Management of Operational Costs based on regulatory goals (Reference firm)	Not interactive	5		
1223	GinisED Enterprise GIS - framework for the utility of the future	Interactive	8	11:00 - 12:30	09:00 - 10:30
1230	METER DATA MANAGEMENT - FROM THE SMARTER GRID TO FUTURE MARKET PLATFORMS ...	Interactive	6	09:00 - 10:30	11:00 - 12:30
1231	Communityware smartgrid	Not interactive	8		
1237	Tactical and Strategic SmartGrid Implementation in ESB Networks	Not interactive	5		
1249	Green E-value : Smart Metering for energy efficiency	Interactive	6	09:00 - 10:30	11:00 - 12:30
1261	A practical approach to accommodating low carbon consumers in existing distribution networks	Interactive	7	11:00 - 12:30	09:00 - 10:30
1271	Economics Behind Dynamic Pricing Benefits in Smart Grids	Interactive	7	11:00 - 12:30	09:00 - 10:30
1273	Green eMotion - Integrated European Demonstration on Electro-Mobility	Interactive	7	11:00 - 12:30	09:00 - 10:30
1293	Implications of regulatory changes of the market model on the distribution business	Interactive	5	09:00 - 10:30	11:00 - 12:30
1328	Age Profile Analysis for HV Assets	Interactive	8	11:00 - 12:30	09:00 - 10:30
